

Elytone Electronic Co., Ltd.

SPS Subwoofer Amplifier

ESA-741

500W

Feature

- High efficiency, Low cost Class-D power amplifier, output rating up to 500W RMS.
- Compact size with Low noise, signal distortion <1.0%
- Switching-mode Power Supply built in.
- Auto turn-on and stand-by functions
- With Over load / current protections
- Dual-color LED as signal On/Off indicator
- Speaker Level Input (R, L)

Specification

- Output power: 500W(rms)@ 8Ω load, THD ≤ 1%
- Crossover frequency adjust range: 40~140Hz
- Switched phase control: 0° ~ 180°.
- Stereo RCA line input (R, L)
- AC input: 100~240Vac Universal
- Auto turn on level: 3 mV; Time to stand-by: 10~15 Min.
- Max. line input sensitivity: 80 mV
- Dimension of Front Panel: 250×250(mm)
